

EDGE PREMIUM SOFFIT/PORCH CEILING

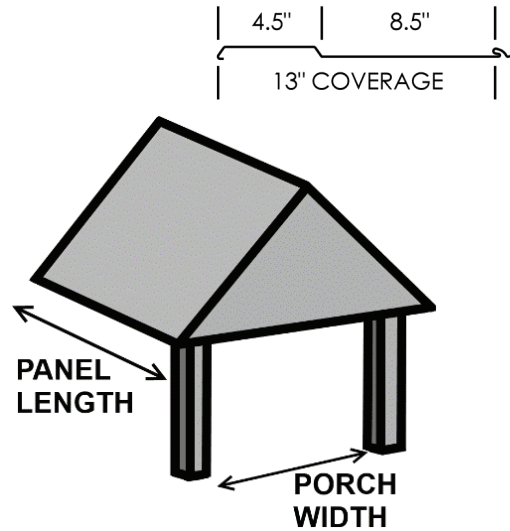

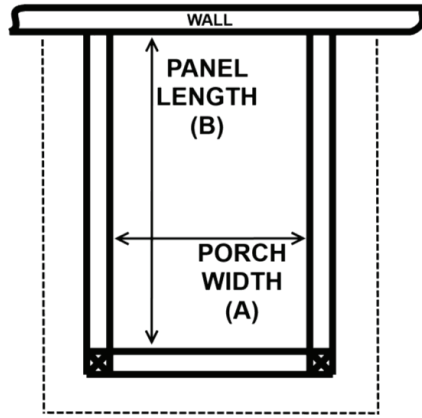

Edge Premium Soffit/Porch Ceiling is made from .027 gauge coil which is 40% thicker than the industry standard. Edge Premium Soffit panels lock like a siding panel, ensuring the panels don't sag and all fasteners are concealed, leaving you with a seamless porch that will last a lifetime. Our porch ceiling panels can also be used for soffit if you have a large overhang or a high wind area.

- NOTE:
- If porch panel length is 8' or under, Residential Panel is recommended (0.019" x 11.75" wide)
 - If porch panel length is over 8', Premium Panel is recommended (0.027" x 13" wide)

PREMIUM (0.027")

- Made to Order Lengths (lead time will apply)
- Standard and special order colors available

TO DETERMINE COVERAGE:

- 1) $\frac{\text{PORCH WIDTH (A)}}{\text{PANEL WIDTH (11.75" OR 13")}} = \text{"X"}$
- 2) ROUND "X" UP TO NEXT WHOLE NUMBER = "Y"
- 3) ORDER "Y" PIECES AT "B" LENGTH
